

FM APPLIANCES

Developed and tested by FireMon, FM appliances are purpose-built to run FireMon solutions in your enterprise or MSSP environment. Whether you're monitoring 100 devices or 15,000, on one continent or around the world, we offer a FM appliance with the power and storage capacity to deliver FireMon's high-performance, highly scalable firewall management and risk analysis solutions.

MEET THE FAMILY

For large to enterprise-sized environments

FM-720ES

Purpose-built to act as a FireMon Application Server and optionally as a Data Collector, it is optimized for maximum power and scalability.

FM-715DC

A FireMon Data Collector optimized for fast multi-core processing and system reliability with a solid-state hard drive.

For large to enterprise-sized environments

FM-1110ES

Purpose-built to act as a high-performance FireMon Database Server or Application Server, it is optimized for fast multi-core processing and system reliability.

FM 700 SERIES

FM 1000

SYSTEM

Series Number	FM-720ES	FM-715DC	FM-1110ES
Processor	2x Intel Xeon Gold 6134 (3.2 GHz)	2x Intel Xeon Gold 6128 (3.4 GHz)	2x Intel Xeon Gold 6140 (2.3 GHz)
Memory	12x 8 GB 2666 MT/s Dual Rank DDR4 RDIMM (96 GB)	8x 8 GB 2666 MT/s Dual Rank DDR4 RDIMM (64 GB)	8x 16 GB 2666 MT/s Dual Rank DDR4 RDIMM (128 GB)
HDD	4x 600 GB 15K RPM 12 Gbit/s 2.5" SAS HDD	2x 120 GB 6 Gbit/s 2.5" SATA SSD	16x 300 GB 15K RPM 12 Gbit/s 2.5" SAS HDD

PORTS

Ethernet	4 10/100/1000 Mbps NIC connectors
USB	2 USB 3.0-compliant ports
Serial	1 Com port
VGA	1 VGA port

ENVIRONMENTAL

Operating Temperature Range	50° to 86°F (10° to 30°C)	50° to 95°F (10° to 35°C)
Storage Temperature Range	-40° to 149°F (-40° to 65°C)	

ELECTRICAL

Power Supply	2x hot-plug redundant 750 W AC
AC Voltage	100-240 V, 50/60 Hz

PHYSICAL

H x D x W	1.68" x 18.97" x 17.08"	3.42" x 18.98" x 17.09"
Weight	48.28 lb (21.9 kg)	57.95 lb (26.3 kg)

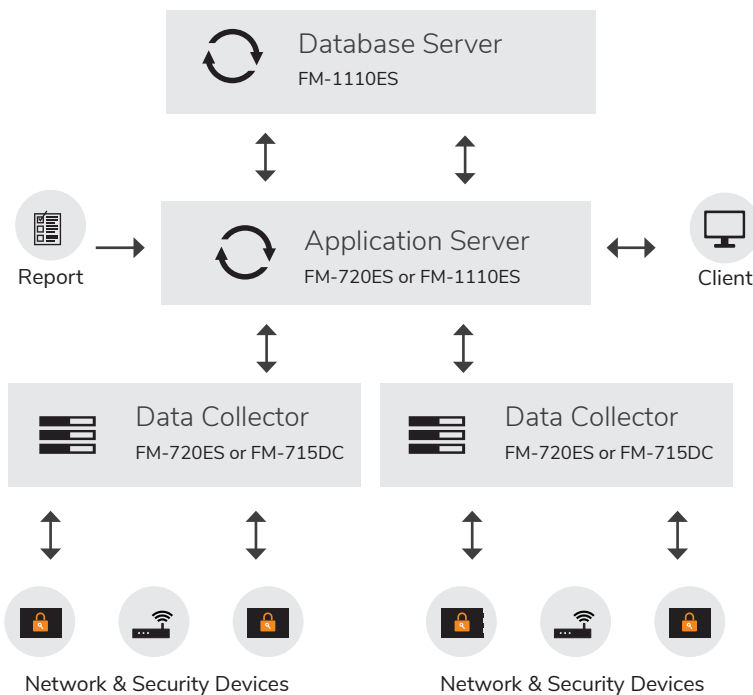

All models include iDRAC8 (Integrated Dell Remote Access Controller) Enterprise for full-featured out-of-band management.

WHICH APPLIANCE IS RIGHT FOR YOUR ORGANIZATION?

Your environment is unique. No matter how many devices you have or where they are located, we have an FM appliance and a deployment option to meet your needs.

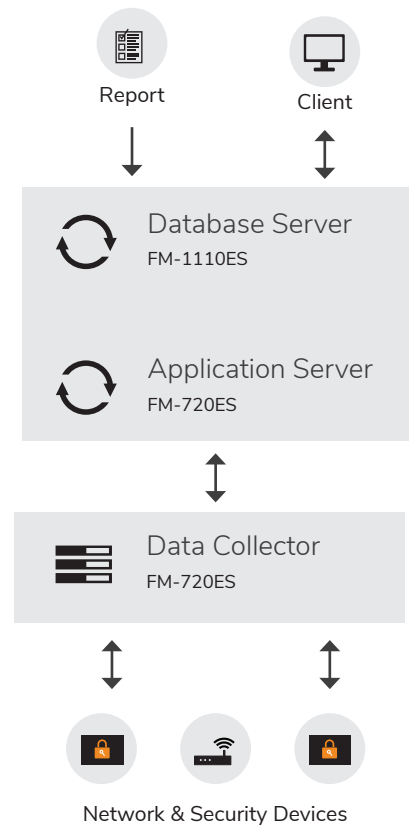

SYSTEM	FM APPLIANCE	MODELS
Distributed	FM Enterprise Server and FM Data Collector	FM-720ES and FM-715DC
		FM-1110ES
Standard	FM Enterprise Server	FM-720ES

DISTRIBUTED ENVIRONMENT

Dedicated Data Collectors are optimized for reliability and high-speed data collection. These can be deployed to meet geographic distributed environments or scaled to meet performance demands.

STANDARD ENVIRONMENT

The FM Enterprise Server can be used as a combined server on the 720ES platform.

These are only visual representations of potential deployment options. Your environment is unique. Please contact our sales team to discuss the appliances and deployment that will best meet your business needs.

MONITORING CAPACITY

SYSTEM	FM APPLIANCE	DEPLOYMENT OPTION	DEVICES MONITORED*
FM-720ES	FM Enterprise Server		
	Acting as Application Server only (requires separate Database Server)	Distributed	1000
	Acting as Application Server and Database Server	Standard	400
FM-715DC	FM Data Collector**	Distributed	350
FM-1110ES	FM Database Server		
	Acting as Database Server only (requires separate Data Collector and Application Server)	Distributed	15000

*These numbers are estimates only. The actual number of devices will vary based on the type of device, the size of configurations, and other environmental factors. Contact FireMon for more details on appropriate sizing based on your needs.

**An FM Data Collector must always be used with an Enterprise Server.

SERVICE & SUPPORT

WE ARE HERE TO HELP

We built our FM line of appliances to be the best in the industry. For every appliance that you purchase, we offer a support agreement to help ensure that your FM system continues to run as efficiently and securely as it did the day you installed it. Please contact our sales team at +1 913.948.9570 for more information on our FM appliance support agreements.

ABOUT FIREMON

The FireMon platform delivers continuous security for hybrid enterprises through a powerful fusion of vulnerability management, compliance and orchestration. Since creating the first-ever network security policy management solution, FireMon has continued to deliver visibility into and control over complex network security infrastructures, policies, and risk postures for more than 1,700 customers around the world. For more information, visit www.firemon.com.
